The statement above is an official verification generated from The Work Number. Because this verification is system-generated with data that originated directly from the employer's payroll system, it is tamper-resistant and represents a higher level of authenticity than employee-furnished copies of paystubs or W2s. If any information is missing, it is because

the employer did not provide this information for inclusion in The Work Number verification. Information not provided by the employer is shown as "Data not Provided". Note: If this person left this employer and was rehired later, the "Total Time with Employer" amount will likely be understated and will only reflect the most recent consecutive months of service.
